Continuation of Substance of Interview including description of the general nature of what was discussed: Agreed to amend claim 4 to specify the key as having at least two attachment elements attached to the bowl so that the filter cartridge, the key, and the bowl could be detached from the manifold as one piece to patently distinguish over Ardes. Agreed to amend claim 5 to specify "prongs extending from said key which fit over a lip of a collar on said bowl" in order to agree with the structural arrangement shown in FIG. 8 of the drawings. Agreed to cancel non-elected claims 1-3, 11, and 16. Agreed to cancel claims 14 and 15 since claims 4 and 5, from which claims 14 and 15 depended, failed to specify the recited "flanges" specified in claims 14 and 15.
